

A close-up photograph of a metal hinge mechanism, likely a door hinge. The hinge is made of dark, textured metal. It features a mounting plate on the left with two circular holes for screws. The central part shows the hinge pin and the internal components. The right side has a long, flat arm with a large, irregular cutout and a screw. The word "DAIWA" is visible on the inner surface of the mounting plate.

F3683 101 2

- S = spessore fianco
- D = copertura dell'anta sul fianco
- T = spessore massimo dell'anta
- K = distanza foro cerniera dallo spigolo dell'anta
- A = aria tra anta e anta
- L = aria tra spalla e anta
- H = altezza base di montaggio
