

The image displays two views of a metal casting mold. The left view is a side profile of a rectangular block with a U-shaped cavity on its right side and four circular holes on its left face. The right view is a top-down perspective of the same mold, showing a complex internal structure with a central rectangular channel, a T-shaped handle on the left, and a rectangular cavity on the right. The mold is made of a dark, heavy metal.

Lunghezza	Altezza	Peso	Descrizione	Art.
268 mm	120 mm	1.28 kg	cerniera	TKR17107
90 mm	65 mm	0.08 kg	riscontro	TKR17108
